FLORENCE, SATURDAY, JUL 1, 1882

Democratic County Convention.

A Democratic County Convention, for the purpose of electing delegates to the Territorial Convention which convenes at Phoenix, July 11th, 1882, to nominate candidates for Delegate to Congress and Superintendent of Public Instruction and other business, will be held at the court-house in the town of Florence, on Saturday, the 8th day of July, 1882. The proceeds will be applied to the following representation:

Florence, 5 Delegates
Silver King, 3
San Pedro, including Riverside, 3
Casa Grande, 1
Maricopa, 1
Mineral Hill, including Batta City, 2
All other precincts one each.

Members of the party in each precinct are earnestly solicited to take the necessary action to have a full representation.

Florence, A. T., June 1st, 1882.

Member for Pinal, Territorial Central Democratic Committee.

Organization.

The Territorial Democratic Central Committee is thoroughly reorganized and made ready for the fall campaign. As now constituted it is as follows:

Phoenix county, Fred G. Hughes
Cochise county, A. C. Baker
Maricopa county, A. C. Baker
Pinal county, P. R. Brady
Yuma county, A. E. de Crespigny
Graham county, H. H. Stevens
Mohave county, H. H. Stevens
Graham county, H. H. Stevens

W. W. Jones, Chairman.
A. D. Lewis, Secretary.

Democratic Convention.

The Democratic Territorial Convention will meet at Phoenix, Arizona Territory, July 11th, 1882, for the purpose of nominating a candidate for Delegate to Congress; also a candidate for Superintendent of Public Instruction, and other business.

The several counties of the Territory are entitled to representation in said convention equal to the whole number of their representatives in both houses of the Territorial Legislature, viz:

Maricopa, 4
Cochise, 5
Gila, 3
Pinal, 3
Mohave, 2
Graham, 2
Yuma, 3
Cochise, 5

W. W. Jones, Chairman.
A. D. Lewis, Secretary.

DETROIT, the assassin, was hanged yesterday in the prison yard at Washington promptly at 12:40 o'clock p. m.

A SMALL boat, containing ten persons, was capsized in San Francisco bay Monday and three of the number, Miss Reinhold her sister and brother, were drowned.

THE House wants to adjourn on the 10th, but the Senate declines. The able-bodied statesmen who fall on the Senate cushions are not yet tired of Washington wine and women.

ABOUT three thousand Crow Indians have congregated between Tongue and Powder rivers, and threaten an outbreak. Why don't Mr. Teller disarm them, according to promise.

ENGINEER MELVILLE telegraphs from Yakutat that he has searched the coast from the river Alaskan to the river Java, but has no trace of the second cutter or of Lieutenant Chipp's party.

SINCE Don Cameron's toothache subsided he has assumed a less defiant air toward the Independents. It is beginning to dawn upon Don that his will has ceased to be law in Pennsylvania.

THE convention of the Seventeenth Congressional district of Ohio, after taking three hundred and seventy-six ballots, adjourned without making a nomination. A new convention will be called.

THE Committee on Education have reported a resolution declining the seat of the Fourth Alabama district vacant. The majority in Congress are establishing a precedent they may live to regret.

TWO BLOODS of "Boston" had a mill in a private row Monday with hard blows. The combat was ended at the fourth round by a false cry of police. Boston is losing her reputation for morality and decency.

GEN. ROBERTSON has been renominated for Congress from the First Congressional district of California. The party might have found a stronger candidate. He has been devoting too much time to self-glorification.

SIX THOUSAND Masons paraded in New York on Saturday in honor of the founding of Masonry in the Empire State. All the buildings along the route of the procession were decked in national and Masonic colors.

FOR SOME inexplicable reason the United States is the only government for which the voters of Alexandria showed any respect. It could not be that some one mailed them a photograph of Mr. Robertson's dangerous little navy!

THE San Francisco Examiner has declared war against the railroad companies of California. It will take a deep sack and a deal of pluck to win a tilt with those corporations, but the Examiner is not weak in either of these essentials.

THE strike fever is spreading over the East. The advance in the price of the necessities of life has forced the laboring classes to demand higher wages. They cannot support their families on the starvation prices now paid them. Some of the more humane employers have consented to a ten per cent increase, but a majority are relentless, and will resist the just demands of their employees to the bitter end. It is feared that the strikers may be driven to enforce their demands by violence, in which event the scene of 76 will be repeated.

CONKING and Cornell have "kissed and made up." The impetuous Roscoe has evidently been convinced that there are a few people who have as much will power and no less influence than himself. That Albany defeat did a great deal toward weakening the stiffening in his spinal column.

The telegraph states that Parson Tiffany, after a protracted illness, is now convalescing in New York city. He was probably prostrated by the unusual strain to which his mental organs were subjected in conceiving those outrageous and slanderous falsehoods he wrote to the Indian Commissioner.

The leading issues of the California campaign, as set forth in the San Jose convention, are the monopolies and the Chinese, with the Democrats on the "anti" side. If they can succeed in driving their opponents to an open avowal of the opposite side of the question the chances will be greatly in favor of the Democracy.

The venerable Victor Hugo, it is said, makes a practice of kissing and embracing all the young American girls who call to pay their respects to the "grand old man." "Vic" must mind his "ps and qs," else those wicked but winning wenchers from the land of the free, who have felt the rapturous touch of his magnetic lips and been thrilled by his fervent embrace, will be diagnosing themselves and stealing in for a second round.

RUMOR has it that Colonel David S. Stanley, of the Twenty-second Infantry, will succeed General O. B. Willcox as commander of this department. We know nothing of Stanley as a commander, but we do know that it will not require a very large pail to hold all the civilian tears shed over the departure of the ancient and incompetent Willcox.

The more you scrutinize the make up of that Tariff Commission the weaker it looks. Not a member of it is known beyond the shadow of his home, and they are about as competent to handle the great question they are to consider as a Fiji is to teach Greek. If Mr. Arthur's aim was to prevent reform of the tariff by appointing men incapable of suggesting any change in it, he has succeeded admirably.

JUDG HACKETT, of the Globe Silver Belt, has ordered two new presses and a large assortment of new type, with the intention of enlarging the Belt to a seven column paper. We are pleased to note the Judge's prosperity. He was one of the first to cast his lot in Arizona, and was a faithful champion of its interests through all the dark and doubtful days of its early history. He deserves well of its people.

ANOTHER Nihilist plot for the removal of the czar has been brought to light by the vigilant police of St. Petersburg. Ninety-eight pounds of nitro-glycerine, one hundred and twenty rounds of dynamite and a large number of the recently invented bombs were captured at the headquarters of the plotters. Forty persons implicated in the scheme have been arrested, and among the prisoners are several army officers and two women.

CYCLONES are still performing deadly and destructive work in Iowa. Several more towns were wrecked last Monday, and a number of people killed. Something near one hundred and fifty people have been killed by cyclones in that unfortunate State within the few weeks just past, and nearly five million dollars worth of property destroyed. The cyclone of Monday extended across the river into Nebraska and damaged considerable property at Omaha.

THE discovery of the frozen corpses of Captain De Long and his companions, and the recital of the terrible sufferings of the survivors of the Jeannette, have not abated the arctic craze. Several learned lunatics are clamoring for another expedition to be sent forth to meet the hard fate of the Jeannette. If they would spend their money and energy in discovering things that would be of some practical benefit to the world they would do better.

The Cochise county Democracy have held their County Convention and elected a solid Oury delegation. It is almost certain that Mr. Oury will enter the convention with sufficient strength to secure the nomination on the first formal ballot. There seems to be a perfect unanimity of sentiment in his favor. His conduct at Washington has strengthened him not only with his party, but with the independent voters. It would be hard to find a stronger man among the Democrats.

Mrs. LANGLEY, the famous English beauty, is preparing to take America by storm, and Cyrus W. Field, the old dog, is trying to locate a quarter section of her affections by giving her a free pass over all the railroads in the United States. He also desires to act as her agent. This astute old sinner has been very successful in manipulating stocks, but his plethoric purse is liable to shrink perceptibly should he get into a liaison with that professional beauty.

INSTEAD of remaining in a country where they are liable to be hurled higher than heaven at all hours of the day by frolicsome cyclones, the people of Iowa should come to this God-favored country. The wind is as mild and well behaved as a summer rephyr. Here they would be not only safe from riding into eternity on the crest of a cyclone, but would not be under the necessity of sleeping in a red-hot bake oven during the winter to save themselves from being converted into an icicle. Besides this, they could accumulate fortunes in half the time here, and with less labor, than are required to accomplish the same feat in that windy and wicked land. There are fertile lands here only waiting correct knowledge of agriculture and horticulture to convert them into the most productive farms and profitable orchards and vineyards on the continent, and mountains of mineral only needing muscle and money to make them pour streams of silver, copper and gold into the markets of the world.

EGYPTIAN affairs are no less unsettled and threatening than they were a week since. There seems to be a settled purpose on the part of the fanatical natives to drive from their soil all Europeans who do not bow at the same altar and confess the same creed as do the former. Their enmity is more particularly directed toward the English, and Mr. Gladstone's mild policy is breeding discontent among the Londoners.

THE Prescott Courier vehemently denies that it accused Mr. Oury of being sectional, and by way of emphasis informs us that the Courier is a very dangerous institution for a "green" man in Arizona to fool with. Thanks, brother Marion; we had no idea we were taking such desperate chances in planting our banners on your soft corns, or that the Courier was one of those bad "critters" from Bitter creek, whose tails cannot be twisted with impunity. Forgive us this time, and we shall cease to be foolhardy.

THE Democratic State ticket of California is as follows: For Governor, Gen. Geo. Stoneman; for Lieutenant Governor, John Daggett; Justices of the Supreme Court, Judges Sharpstein and Ross; for Congressmen-at-large, Charles A. Sumner and John R. Glascock; for Secretary of State, T. G. Thompson; for Controller, John P. Dunn; for State Treasurer, W. A. January; for Attorney General, E. C. Marshall; for Surveyor General, H. T. Willey; for Superintendent of Public Instruction, W. T. Welcker; for Clerk of Supreme Court, J. W. McCarthy.

GENERAL STONEMAN knocked the gubernatorial nomination in the Democratic State Convention of California. The General represents the anti-monopoly idea in California politics, and his selection will give the color of sincerity to the professions made in the anti-monopoly platform put forth by the convention. That he is a strong man, as a candidate, is evidenced by his most pronounced political enemies, and the Republicans will be compelled to put up a good man against him in order to win the fight. As a result the Golden State will secure a Governor whichever way the political cat may jump.

THE nomination of General George Stoneman, and the issuance of a strong anti-monopoly platform by the San Jose convention, places the San Francisco Chronicle in an uncomfortable position. That paper is extremely radical in its Republicanism, and at the same time is a pronounced anti-monopoly journal. It cannot support Stoneman without repudiating Republicanism, nor oppose him without repudiating its position on the monopoly question. Hence, it cannot sit large of the table without finding a very large dish of corn before it. It will be interesting to watch its maneuvers.

A PARTY of six ladies and six gentlemen, were huddled in a bank near Saturday evening were instantly killed by a moonlight strike stage, and the result of the driver. The driver was killed by the strike of the moonlight strike stage, and the result of the driver. The driver was killed by the strike of the moonlight strike stage, and the result of the driver.

A SPECIAL to the Denver Tribune from dated June 27th says: Deputy Sheriff Dalman at a gambler named Gutzel fired two shots at wounding him; also Jacob Harris, who were shortly afterwards Dalman attempt to arrest him. Mentzel, the death of Harry Moreton, Peace, Hugh E. Delton, and A. Jackson, a saloon keeper. All three were instantly killed. He also seriously wounded H. Dattimer and Deputy Sheriff Be. The killing Mentzel was seized by the engaged citizens and hanged to the sign of the Raton Bank.

CONGRESSMAN HUBBELL's circular notifying employees of the government that they have been assessed for campaign purposes is creating considerable agitation in the East. The Civil Service Reform Association, of which George William Curtis is President, propose testing the legality of such assessments, and it is probable that the matter will be speedily and definitely settled. This practice of creating a corruption fund by means of assessments levied upon subordinate office holders of the government is one of the open daggers of American politics. The evil should have been stamped out within the day of its creation, but better late than never. The Civil Service Reform Association will have the support of the people, irrespective of political affiliations, in their opposition to a practice so impudent and infamous.

THE Examiner has been figuring up the land grants to railroads, with the following result: "The Central Pacific received a land grant of 12,000,000 acres, worth \$30,000,000. The Union and Kansas Pacific road, Jay Gould's property, received 24,046,716 acres, valued at \$60,000,000. The Northern Pacific road, under the control of Henry Villard, controls 47,000,000 acres, valued at \$98,000,000. The Southern Pacific has 5,000,000 acres, valued at \$6,000,000. The Texas Pacific, owned by Jay Gould, controls 13,400,000 acres, valued at \$40,000,000. The Atlantic and Pacific road 42,000,000 acres, valued at \$90,000,000; and numerous other roads received grants aggregating 290,000,000 acres, of a total valuation of \$736,896,000." Still the corporation corporators are not satisfied, but must slice from the people, in excessive freight rates and fares, additional millions, persistently refuse to bear their pro rata taxes, and insist upon dictating elections, legislation, etc. No wonder the people and the press are beginning to protest vigorously.

Should any money be forwarded to the Register, or be paid to him, he will at once pay over the same to the Receiver.

A SLIGHT riot occurred in Cork on Friday, but was suppressed by the police.

TUCSON claims two millions as her property valuation. The venerable pueblo is becoming rich and riotous.

Now THAT Guitau has been hanged let Congress adjourn, and the country will draw a breath of relief.

SAN FRANCISCO has become so orderly that police officers go out and play baseball with Haverly's Minstrels to kill time.

CAPTAIN C. P. BLETCHER, a prominent mining and real estate man, dropped dead on a San Francisco street Tuesday. Cause, heart disease.

MARSHED citizens took a Mexican horse thief from Sheriff Stevens, Tuesday, near Smithville, and hanged him. The lynchers are supposed to be Mormons.

JOHN FRY killed J. H. McGowan at Bowie Tuesday evening. They were alone in a cabin at the time of the shooting, and no one knows the cause of the killing.

WILSON Kelly, Conking and Cornell lock arms in a brotherly love there is reason to believe that bossism will have a long run on the political boards of New York.

THE burned district in Tombstone is rapidly rebuilding, and most of the re-builders are erecting handsome and more expensive structures than were those destroyed. Business men of Tombstone are evidently not without faith in the permanence and future growth of the town.

We have received No. 4 of the Tombstone Daily Republic, edited and published by J. O. Dunbar. It is a seven column folio and very well gotten up typographically. The editorial and local departments are well managed, and the paper presents every indication of becoming a permanent and prosperous institution. We wish it success.

A PRESS dispatch from San Francisco says: "James McCoy, an experienced Virginia City miner, with some associates, has taken up a gold quartz claim within the city limits, near the Industrial School. The lode is claimed to be over six hundred feet wide and traceable for two miles. A tunnel has been begun, and the assays of rock run from traces of gold and silver to over twelve dollars per ton."

We notice that those editors who prate the loudest and most continuously about wiping out sectionalism in this Territory are the only ones whose lives are tinged by the green of sectional jealousy. The ENTERPRISE has had nothing to say on the subject, and is about the only paper that makes regular weekly reports of mining news from all parts of the Territory. If our esteemed contemporaries really desire to be considered non-sectional, let them refrain from their periodical and loud protestations of impartiality, treat all sections of the Territory with due respect and attention, and their readers will soon forget that there ever was such a thing as sectionalism in Arizona newspapers.

Land Office Circulars.

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE, WASHINGTON, D. C., May 9, 1882.

TO REGISTER AND RECEIVERS, U. S. DISTRICT COURTS, AND OTHER OFFICERS: Your attention is directed to the provisions of the following act of Congress, approved April 26, 1882:

An act to amend section 2326 of the Revised Statutes, in regard to mineral lands and other public lands.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled: That the adverse claim required by section 2426 of the Revised Statutes may be verified by the oath of any duly authorized agent or attorney-in-fact of the adverse claimant cognizant of the facts stated; and the adverse claimant, if residing or acting at the time being beyond the limits of the district wherein the claim is situated, may make oath to the adverse claim before the clerk of any court of record of the United States or the State or Territory where the adverse claimant may then be, or before any Notary Public of such State or Territory.

"Sec. 2. That applicants for mineral patents, if residing beyond the limits of the district wherein the claim is situated, may make any oath or affidavit required for proof of citizenship before the clerk of any court of record, or before any Notary Public of any State or Territory."

1. It will be observed that the act is retroactive, and hence cannot affect proceedings had prior to its approval; where citizenship, however, has not been proven, it may be established as provided by section 2 of this act.

2. Where an agent or attorney-in-fact verifies the adverse claim, he must distinctly swear that he is such agent or attorney, and accompany his affidavit by proof thereof.

3. The agent or attorney-in-fact must make the affidavit in verification of the adverse claim within the land district where the claim is situated.

Very respectfully,
N. C. McFARLAND, Commissioner.
Department of Interior, May 29, 1882.
Approved: H. M. TELLER, Secretary.

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE, WASHINGTON, D. C., May 24, 1882.

TO REGISTER AND RECEIVERS: The attention of this office having been called to a difference of opinion existing among the several parties claiming the land Office as to the proper officer to receive money to pay for entering lands, or for fees for transcripts of records and other services rendered, I have to call your attention to the following instructions:

Registers of Land Offices have no right, officially, to receive any moneys whatever except such as are paid to them by Receivers as salary, fees and commissions, and the fee of \$1 they are especially entitled to receive for giving notice of the cancellation of pre-emption, homestead and timber culture entries under the act of May 14, 1880. All moneys received for other services rendered by either Registers or Receivers are to be paid to the Receiver, and deposited and accounted for by him as other public money.

Should any money be forwarded to the Register, or be paid to him, he will at once pay over the same to the Receiver.

and where parties address the Register as to the value of any lands, or the cost of any service required, he will instruct them that the Receiver is the proper officer to receive public funds.

N. C. McFARLAND, Commissioner.
